Guidelines on How to Fill Out the Digitized Annual Mineral Resources and Reserves Inventory Report (MGB Form No. 29-19)

Before You Begin

- Use **Adobe Acrobat Reader** or any version of Adobe Acrobat to ensure full functionality of the fillable form.
- Ensure **consistency between resource and reserve figures** across all sections.
- Thoroughly **review all units**: Tonnage, Grade (Primary & Secondary), Specific Gravity, Cut-off Grade, etc.
- Report Mineral Reserves as part of Mineral Resources, i.e., **Resources ≥ Reserves.**

Submission Procedures

1. **Open** the Digitized Annual Mineral Resources and Reserves Inventory Report (MGB Form No. 29-19).
2. **Fill out** the necessary fields.

2.1. **General Information**

2.1.1. **Name of Mining Contractor/Permit Holder/Permittee** – Enter the official name of the **entity authorized to operate** under the mining contract or permit.

2.1.2. **Name of Operator** – Provide the name of the operator, if different from the permit holder. Enter **N/A** if not applicable.

2.1.3. **Mining Contract/Permit Number** – Select your valid Mining Contract/Permit Number from the **dropdown list**, which is **arranged in alphabetical order**. Manual entry is allowed only if your contract or permit number is not included in the list.

2.1.4. Region – Identify the region where the mining project is located.

2.1.5. Status of Operation – Specify the current **operational status** of the project.

2.1.6. For Year – Indicate the **reporting year** of the data being submitted.

2.2. **Mineral Data**

2.2.1. Mineral Type – Indicate whether the mineral is **Metallic or Non-Metallic.**

2.2.2. Primary Mineral – Specify the **main mineral** being reported or extracted (e.g., Gold, Copper, Nickel, etc.).

2.2.3. Secondary Mineral(s) – List any **associated or by-product minerals** of economic interest (e.g., Silver, Molybdenum, Iron, etc.)

2.2.4. With Material Classification? - Indicate **"Yes"** if the report includes **more than one material classification**, such as different ore types (e.g., Limonite and Saprolite) or mining methods (e.g., Underground and Open Pit). Otherwise, select "No".

2.2.5. Material Classification – If "Yes" is selected above, **provide the specific classifications** used in the report (e.g., Limonite, Saprolite, Open Pit, Underground) under the appropriate Material Classification 1 and/or Material Classification 2 fields.

2.2.6. Previous Year's Resources and Reserves – Enter the reported tonnage and grade

by category (Measured, Indicated, Proved, etc.) for the **previous year.**

2.2.7. Changes in Resources and Reserves – State the **changes in tonnage/grade not due to mining** (e.g., changes due to re-estimation or reinterpretation).

2.2.8. Reason for the Change – Select the appropriate reason from the dropdown list to explain the cause of changes in resources and reserves other than mining extraction. The available options are:

2.2.8.1. Discoveries – Refers to the identification of new mineral deposits or ore bodies not previously reported. This includes extensions of known deposits confirmed through additional exploration (e.g., drilling, trenching, or geophysical surveys).

2.2.8.2. Upward Reappraisal – An increase in previously reported resources and reserves due to improved geological understanding, new sampling data, or refined estimation methods. This reflects a positive adjustment in tonnage, grade, or confidence level.

2.2.8.3. Reclassification – The transfer of tonnage and grade between categories (e.g., from Indicated to Measured, or from Probable to Proved Reserves) as a result of additional information, improved confidence, or changes in reporting standards.

2.2.8.4. Catastrophic Losses – Refers to a sudden, significant, and non-mining related reduction of resources or reserves caused by events such as landslides, flooding, earthquakes, fire, or other natural/technical disasters that render part of the deposit inaccessible or uneconomic.

2.2.8.5. Downward Reappraisal – A decrease in previously reported resources and reserves due to reinterpretation of geological data, revised economic assumptions (e.g., metal prices, cut-off grades), or the application of more stringent estimation methods.

2.2.9. Mined Resources/Reserves – Provide the **quantity and grade of materials extracted** during the reporting year.

2.2.10. Remaining Resources and Reserves – Update the tonnage and grade values after deducting mined quantities and applying any changes. These figures represent the **current Mineral Resources and Reserves as of the reporting year**.

2.2.11. Specific Gravity(ies) – Enter the Specific Gravity(ies) value(s) used in the estimation.

2.2.12. Cut-off Grade(s) – Enter the **minimum grade thresholds** applied in the estimation.

2.2.13. Estimation Method – Describe the **estimation method used** for resource/reserve estimation (e.g., Inverse Distance, Ordinary Kriging).

2.2.14. Computer Software Used – Specify the **software used** in generating the estimates (e.g., Surpac).

2.2.15. Date Reported – Indicate **when the report was finalized**.

2.3. Certification and Endorsement

2.3.1. Accredited Competent Person – The **qualified person** responsible for the report must enter their name, position, company, and sign the form.

2.3.2. President/Authorized Representative – The **legal representative** must review and sign, confirming the validity of the submission.

2.3.3. Acknowledgement Section – Must be **notarized by a Notary Public** to authenticate the declaration.

3. **Save** and **Print** the filled-out Form.

4. **Notarize** the filled-out Form.

5. Scan the Notarized Form and **Submit in the provided Google Form**.

https://tinyurl.com/4jp3nnk5

6. **Receive an Email** for your **Unique Code**.
7. Re-open your filled out MGB Form 29-19 and **Enter the Unique Code**.
8. Click on **Submit**.
9. Receive an **Email Confirmation**.
10. Print the email confirmation and **include it in your physical copy submission** to the MGB Central Office. This requirement is **subject to change pending approval of the paperless submission** initiative.

ANNUAL MINERAL RESOURCES AND RESERVES INVENTORY REPORT

Name of Mining Contractor/Permit Holder/Permittee: _____

Name of Operator (if any): _____
Mining Contract/Permit Number: FTAA No. 001
Region: Cordillera Administrative Region (CAR)
Status of Operation: Exploration
For Year: 2025

Instructions on Reporting:
1. Report Mineral Reserves as part of Mineral Resources, *i.e.*, Resources ≥ Reserves.
2. Report at least one (1) secondary mineral grade, if applicable.

Mineral Type: Non-Metallic
Primary Mineral: _____
Secondary Mineral(s): _____
With Material Classification?: ○ Yes ○ No

Material Classification 1 (i.e., limonite, saprolite): _____ **Moisture Content 1** (in %, if applicable): _____

Previous Year's Resources (Opening Stock)				Previous Year's Reserves (Opening Stock)			
Category	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*	**Category**	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*
	N/A	N/A	N/A		N/A	N/A	N/A
Measured				Proved			
Indicated				Probable			
Inferred							
Total				**Total**			
Changes in Resources (Except Mined) Reason for the change (*i.e., re-estimation*): N/A				**Changes in Reserves (Except Mined)** Reason for the change (*i.e., re-estimation*): N/A			
Category	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*	**Category**	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*
Measured				Proved			
Indicated				Probable			
Inferred							
Total				**Total**			

Mined Resources/Reserves (Production)			
Category	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*
Measured/Proved			
Indicated/Probable			
Measured/Probable (if applicable)			
TOTAL			

Remaining Resources				Remaining Reserves			
Category	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*	**Category**	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*
Measured				Proved			
Indicated				Probable			
Inferred							
Total				**Total**			

Material Classification 2
(i.e., limonite, saprolite): _____

Moisture Content 2
(in %, if applicable): _____

Previous Year's Resources				Previous Year's Reserves			
Category	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*	**Category**	**Tonnage**	**Grade** *Primary*	**Grade** *Secondary*
	N/A	N/A	N/A		N/A	N/A	N/A
Measured				Proved			
Indicated				Probable			
Inferred							
Total				**Total**			
Changes in Resources (Except Mined)				**Changes in Reserves (Except Mined)**			
Reason for the change (*i.e., re-estimation*): N/A				Reason for the change (*i.e., re-estimation*): N/A
